

## The Barefoot Pellet Story

Located in the scenic Endless Mountains of Northern Pennsylvania, Barefoot Pellet Company manufactures some of the highest quality wood pellets in the industry.

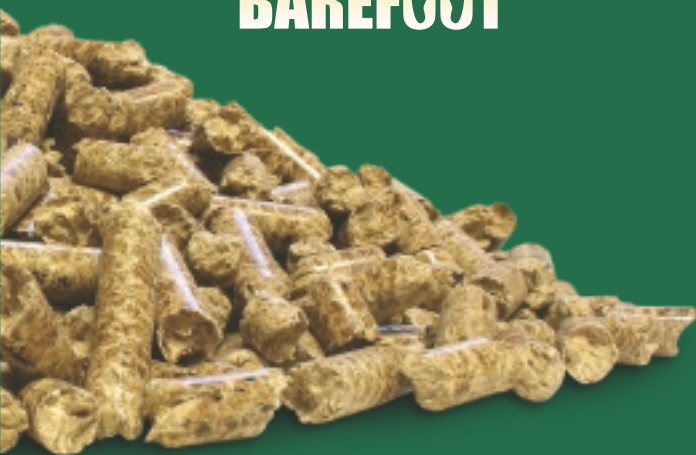

Having other family owned companies in the dimension lumber business since 1929 and the hardwood flooring business since 2001, making wood pellets from our hardwood sawdust and waste material was a logical step for the Cummings Family.

Quality wood products have always been a trademark of our companies and Barefoot Pellet Company will continue that tradition!

**We Thank You for your interest in Barefoot Pellets.**

**HEAT YOUR FEET**

## SUPER PREMIUM HARDWOOD PELLETS

**KEEPING FAMILIES WARM  
BY A FAMILY OWNED BUSINESS**

**MADE IN THE USA**

## Why Barefoot Pellets?

- **Barefoot Pellets** are exceptional in quality and consistency as we tightly control the quality and the cleanliness of the raw material used to make pellets.
- **Barefoot Pellets** utilize sawdust from a variety of hardwood species from the renewable & sustainable forests of Pennsylvania and New York. These species include Cherry, Maple, Red Oak, Hickory, Walnut, and White Oak.
- **Barefoot Pellets** are independently tested and consistently meet the standards for super premium pellets.
- **Barefoot Pellets** have superior low ash content due to the quality of the hardwood raw material used.
- **Barefoot Pellets** are extremely efficient in terms of low emissions, clean burning and high heat.
- **Barefoot Pellets** are protected from moisture by our bag hoods which cover all shipments of pellets to our distributors.

Our hardwood pellets are proudly made in the USA.
